S&P 500 Index	-5.6%	-4.3%	

Performance data represents past performance, and past performance does not guarantee future results. Performance data is subject to revision following each monthly reconciliation and/or annual audit. Performance figures presented Excluding SCM SP represent the fund's net returns calculated without the impact of the San Cristobal Mining, Inc. side pocket that was designated on July 1st, 2024. The side pocket includes a private equity asset that is not available to new investors in the funds on or after July 1, 2024. Excluding these assets provides a clearer view of the performance to investors coming into the funds after that date. New investors cannot participate in the SCM Side Pocket and will not share in its potential gains or losses. Investors should consider both the overall performance and the performance excluding the side pocket when evaluating the fund's returns. Net returns reflect the performance of an investor who invested from inception and is eligible to participate in new issues and side pocket investments. Net returns reflect the reinvestment of dividends and earnings and the deduction of all expenses and fees (including the highest management fee and incentive allocation charged, where applicable). An actual client's results may vary due to the timing of capital transactions, high watermarks, and performance. Data shown is generated by [Preqin](#), a leading provider of data and intelligence for the alternative assets industry. Fund managers, including Crescat, input their performance information which is allocated by [Preqin](#). Crescat pays an annual fee to [Preqin](#) to have access to their database which gives us the ability to generate this report. The report shows all hedge funds that have been updated in the [Preqin](#) database as of 4/25/2025. No award or ranking should be construed as a guarantee that you will experience a certain level of results, nor should it be construed as a current or past endorsement of Crescat.
